

Shuaib Afnan

*Data Scientist & Full Stack
Web Developer*

About Me

Passionate about continuous learning and exploring the realms of data science and web development. Constantly seeking new challenges and expanding my knowledge in these dynamic fields. Embracing the thrill of discovery and applying it to create innovative solutions that make an impact.

Languages & Expertise

- Machine Learning
- Deep Learning & NLP
- Feature Engineering
- Python(Seaborn, Matplotlib, Pandas, Numpy, Sklearn, Nltk, Tensorflow)
- Tableau, Excel
- SQL
- Html / CSS / JavaScript
- R language
- Time Series Analysis & Forecasting
- MongoDB , Flask, Streamlit

Education

- 2006-2018
KKR Gowtham EM High School
CGPA - 9.8
- 2018-2020
Narayana Junio College
CGPA - 7.93
- 2020-2024
B.S Abdur Rahman Crescent University
CGPA - 9.29

Personal Projects

- Anime Recommendation System
 - Made a end to end website using flask which consists of content, popularity, mood , genre and collaborative filtering type recommendation methods.
- Ecommerce Website
 - Made a fully end to end website using resnet50 model for training images and knn algorithm for finding similar products.

Skills & Minor Projects

- Machine & Deep Learning
 - Implemented projects like sentiment analysis, cat vs dog classification , movie recommendation system & made money conversion and restaurant chatbot.
- Full Stack Web Developement
 - Implemented Projects like company portfolio, personal Portfolio, Travel & tourism Website and Properties selling website.
- Time Series Analysis & Feature Engineering
 - Worked on credit card Fraud, Titanic, Zomato food delivery, Indian flight routes datasets and applied eda techniques & forecasted water well volume and level , delhi weather & Tesla Stock price using time series analysis.
